To Our Residents and Family Members:

I hope all is well with you and you are having a good start to 2021. We have had no new cases of COVID-19 among our staff or residents. We are maintaining vigilance on screening all staff and essential workers who enter the building. We still are under the order from the State that only critical medical or delivery personnel are allowed into the building.

CVS pharmacy provided our first COVID-19 vaccine clinic on January 21 and this went very well. The next clinic is on February 11, at which time the second dose will be administered.

In addition to having door to door activities daily, we have set up a "Meditation Room" where residents can go one at a time and have a peaceful respite that is in a different setting from their own apartment. The visits to the room are scheduled through the Activity Department.

Connecting with family members is incredibly important to our residents. We have a way for you to connect via video through our facility computers. Contact Katrina Blea at 303-455-9513 for more information about how to connect.

Please visit the [Centers for Disease Control and Prevention \(CDC\) website](https://www.cdc.gov) to learn how you can help prevent the spread in our community and the community at large.

Sincerely,

Janis Mueller

Executive Director
The Argyle
