

August 2024

On August 6, 1762, the first-ever sandwich was created, at least with such a name. It was named after the Earl of Sandwich when he requested a dish involving meat between two pieces of bread. As the story goes, he requested it as he was in the middle of a gambling game and didn't want to interrupt it.

Born in August?

Who isn't curious to know the famous people born in the same month? A few interesting facts are waiting ahead for you, August-borns!

Some renowned August-borns who bought fame and stature home were the American Presidents Barack Obama, Bill Clinton, Herbert Hoover, and Lyndon B Johnson.

The birthstone of August is peridot, which boasts a light green color. Dubbed the "gem of the Sun", this gemstone is said to have special healing powers.

Associated with restful sleep, harmony, peacefulness, and good health, peridot is said to be a stone of compassion that relieves anger through the renewal of things. Some say this birthstone gives protection from nightmares and freedom from envious thoughts that may put a strain on relationships.
